Al Staehely & 10K Hrs.

Straight out of rock and roll history comes the rare and classic solo album from former Spirit frontman, Al Staehely. Originally released as *Stahaley's Comet* (a deliberate misspelling of Al's true last name, in order to represent the pronunciation phonetically), this is the 1982 album's first appearance on CD and its first appearance on this side of the pond. *10K Hrs.* is the first step in Al's long-awaited and rockin' return to stage and studio—and it won't be the last.

Staehely's gift for writing, playing, and singing tough rockers secured him the high-profile gig that kept the legendary progressive rock band Spirit alive after the departure of several founding members in 1971. Al and his brother John brought a new blues rock feel from their native Texas, proving with the acclaimed *Feedback* album that Spirit endured. Tight tracks like "Cadillac Cowboys" and "Chelsea Girls" displayed Al's songwriting talents, which led to covers by artists like Bobbie Gentry and Keith Moon. But it was Al's own interpretations that rang true, as you'll hear in this landmark album. *10K Hrs.* has muscle, energy, and rock and roll passion. Not to mention spirit.
