## Uranium Savages-Clown Juice

From the Keeping It Weird land of Austin, Texas comes the epitome of that town's gloriously quirky musical ways, it's the return of the mighty Uranium Savages! SteadyBoy Records is thrilled to have these musical savages back again for their second release with the label. This time, the loose aggregation of Austin luminaries brought in producer Shawn Sahn to inject a heaping helping of TexMex in the spirit of their old pal (and his dad), Doug Sahn. It's a good fit for the comedic musical stylings of this rowdy bunch. Once again, the song titles tell you a lot, like "Make Austin Great Again," "Get Loose," and "Gotta Rock," (as in "in my shoe"). And once again, we can't name all the titles because a Parental Advisory warning label comes with this release, too. The Uranium Savages. They gotta rock. In their shoe.
