THROUGH A FARAWAY WINDOW: A TRIBUTE TO JIMMY SILVA

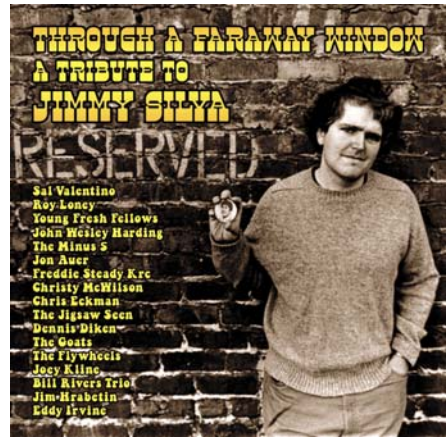

The three alluring albums cut by San Francisco bay area native Jimmy Silva 20 years ago, full of irresistible folk-rockers and haunting melodies, have never been forgotten by Silva's fellow musicians and his adoring core of fans. Critic's darlings the Young Fresh Fellows and the Smithereens recorded some of Silva's best work.

In turn, YFF's Scott McCaughey contributed songs to Silva's solo recordings before Silva's untimely death at 42 in 1994. McCaughey went on to work with REM and to form the Minus 5, but he never forgot his friend's songs. Neither did SteadyBoy Records owner and Texas power popper, Freddie Steady Krc, and music journalist Jud Cost who gathered Silva's fans and friends for *Through a Faraway Window: A Tribute to Jimmy Silva*. The collection includes Freddie Steady, Scott McCaughey, the Beau Brummels' Sal Valentino, the Posies' Jon Auer, and other Silva admirers. Look through this faraway window, and you'll hear the inspirational songs Jimmy left behind.

--Rush Evans, SteadyBoy Records

If Jimmy Silva, the brilliant subject of this irresistible tribute album, had been born ten years earlier he might have made a small fortune writing folk-rock smashes for the Byrds. --Professor Jud Cost
